

# NAGARAJ ARABIANS

## Conditions for SHIPPED SEMEN:

Mare owners using Nagaraj Arabians stallions for breeding purposes shall agree to the following terms and conditions.

### Fees:

NK Ézz el Dine, grey, foaled 2015, by NK Hafid Jamil out of NK Noha by NK Jamal el Dine	2,000 Euros
NK Hamza, chestnut, foaled 2011, by NK Kamar el Dine out of Andorra bint Asfoura by Adnan	2,000 Euros

The breeding season starts on 1 February and ends on 31 August. The above stallions are SCID and CA-free. The fees do not include VAT.

The above fees cover the purchase of a portion of 3 straws of frozen semen, professionally shipped from the Veterinary University of Vienna – shipping costs to be paid by the mare owner, who agrees to accept the conditions of this contract.

The cost for fresh seeds amounted to € 250,00 pro jump.

In case of a free breeding option, no breeding fees will be charged, however, the costs for the production of frozen semen or fresh semen, respectively, plus shipping costs will be charged.

Cost for shipping and returning the containers will be charged to the owner of the mare.

Place of fulfilment and jurisdiction is the stallion owner's place of residence.

This contract is governed by the laws of Austria.

When ordering semen, please state:

- stallion of choice
- name and complete address of customer/breeder/mare owner

The FEE is payable prior to SHIPPING.

Upon receipt of payment, you will receive 3 straws of semen as agreed from the stallion of your choice, together with 1 WAHO semen collection & insemination report.

Following the successful insemination, this REPORT is to be returned to NAGARAJ ARABIANS, so that NAGARAJ ARABIANS may issue an insemination certificate from the Austrian registry – VVÖ – which will enable you to register the foal with your registry. The stallions are available only through frozen semen. Mares will not be accepted for breeding on the premises. In individual cases, fresh semen may be available subject to special conditions.

NAGARAJ ARABIANS does not accept liability for the condition of the semen, once the container has been shipped from the Veterinary University of Vienna.

NAGARAJ ARABIANS gives a LIVE FOAL GUARANTEE, that is to say: in the event that the mare does not get in foal, reabsorbs or loses the foal or give birth to a non-viable foal, the same mare may be re-inseminated from the remaining straws free of charge. This must be reported to NAGARAJ ARABIANS for the handling of the above procedure.

For the purpose of the agreement, a live foal shall be one that survives the first 24 hours and within this time stands and nurses without assistance. If all shipped straws have been used without success, a new contract is required.

In the event the stallion, for whatever reasons, is not able to provide semen for re-service, the mare owner may choose one of the stud's other stallions – additional charges to be paid by the mare owner. No further claims by the mare owner will be accepted.
